

**Central  
Denmark  
EU Office**

## **Central Denmark EU Office - the Central Danish gateway to the EU**

At Central Denmark EU Office, we work hard to make sure that the Central Denmark Region along with its 19 municipalities, Aarhus University and VIA University College play an active part in the EU, thus maximizing the outcome of the many opportunities that the EU-cooperation presents.

### **The results speak for themselves**

Since 2007, we have helped to bring home close to 100 million euros in EU-funding to directly benefit enterprises, organizations and higher learning institutions in the Central Denmark Region.

### **But funding is just one side of the successful story**

From our office in the heart of Brussels, we continue to expand and deepen our network within the EU, thereby staying updated on the newest developments regarding e.g. EU-funding and structural changes that might influence a given area of policy. Thereby, we can help Central Denmark gain that all-important early knowledge that is often essential when wanting to seek funding or find the right European partners.

### **International innovation boosters**

We facilitate collaboration between Central Danish institutions and their counterparts abroad in order to boost innovation and cooperation across borders.

### **Our door is always open**

We regularly welcome visitor's groups wishing to learn more about the EU and our work for Central Denmark abroad, leading to hundreds of visitors at our Brussels office each year from a wide range of higher education institutions, municipalities and organisations.

### **A little geography**

The Central Danish region comprises the central part of Jutland from coast to coast and is home to Aarhus, which is the second largest city in Denmark.

### **Key areas of work**

Central Denmark is a very diverse region with focus on innovation, healthcare, education, food, research, energy, environment and culture. The Central Denmark EU Office has teams and advisers dedicated to each of these areas, thereby ensuring that we always have the necessary expertise on hand to help the Central Denmark region benefit from the EU-collaboration.

### **Learn more**

You are always very welcome to contact us or to visit our homepage for more information.

Kind regards,
